UK

Dear Paul,

13 October 2021

Subject: Security Evidence for Strebord and Stredor Doorsets

We give full permission for Türmacher Entrances to incorporate the Falcon Panel Products' System Supplier's Specification (Refs D297-001 and D297-002) held on file at Element BM Trada into their own enhanced security certification scope. This evidence is cascaded to Türmacher Entrances as a complete system, therefore no single component may be changed for another similar product not listed without separate authorisation from Falcon Panel Products Ltd. This letter of authority does not constitute permissions for resistance to fire – evidence for resistance to fire may be obtained separately from Falcon Panel Products Ltd.

The basis of this permission is that Strebord® or Stredor® is used as the core material with additional material required to complete the fabrication are those specified within the scope documents detailed above.

All goods manufactured will be to sizes and tolerances stated and will be the responsibility of Türmacher Entrances to ensure these are adhered to at all times. Türmacher Entrances will also be responsible to ensure the door set(s) are fit for the purpose and long-time serviceability and conformity to recognised standards and good practices.

Strebord® and Stredor® are registered trademarks owned by Falcon Panel Products Ltd and can only be used in the context of door/door sets in which the material is used. Falcon Panel Products' Door Core Materials are purpose made, engineered boards developed specifically for use in the manufacture of high-performance doors, door assemblies and doorsets.

Continuous development of all Falcon door products may result in additional information being made available and communicated during the validity period of this document.

Falcon Panel Products Ltd operates as a Systems House and is available to provide product support where required. It is however the responsibility of Türmacher Entrances to maintain any certification scheme requirements and to close any non-conformities issued to Türmacher Entrances during surveillance audits and/or tests.

Falcon Panel Products Ltd reserve the right to withdraw permission without notice if the company holding this document fail to process listed products in accordance with terms of this letter and the scope documents contained herein.

This permission is valid, initially, for a period of two years from date of issue.

We hope this will satisfy your requirements for scheme membership.

Yours sincerely

Neil Harrison
Door Technical Manager
Falcon Panel Products
